Article	Art.nr.
Battery f REAL electric chair 12v 7,2 Ah	801134
Battery f REAL electric chair 12v 3,4 Ah	801135

Necessary tools

No necessary tools

Instructions

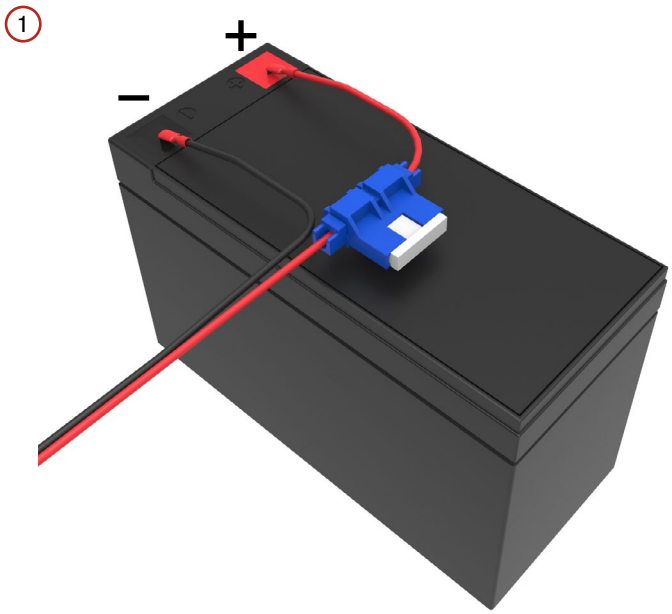

Remove the backrest of the chair and turn the chair upside down, resting it on the armrests, preferably on a table.

Remove the strap keeping the battery in place and remove the connections to the battery. You can now remove the old battery.

Place the new battery in the holders on the seat frame. Attach the black wire to the negative battery terminal and attach the red wire to the positive battery terminal.

Fasten the battery using the strap you removed earlier.

NOTE! Used batteries should be recycled in special containers designated to batteries.
