TRACK SYSTEM FOR REAL CHAIRS

FOR ACCESSORIES TO THE REAL 9000 PLUS SERIES AND REAL 6100 PLUS.

The track system provides improved assembly and adjustment options, primarily for trunk and side/thigh supports, but also for various types of belts and harnesses. The track system is divided into one track for the high backrest and another for the seat cushion. The track system is primarily designed for our own accessories but is also compatible with accessories from other suppliers.

MERCADO MEDIC

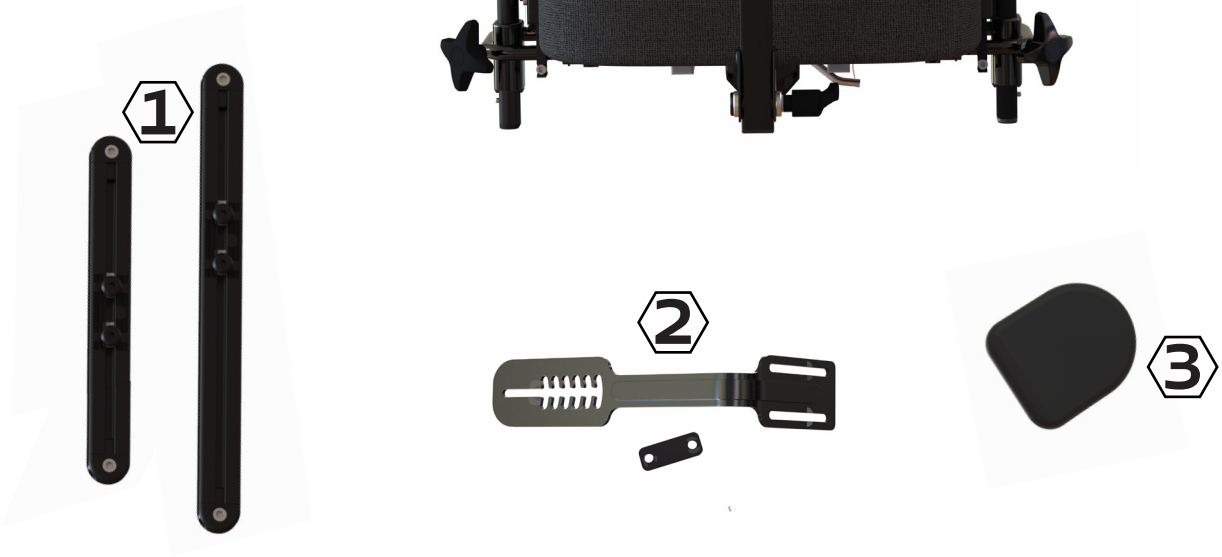

The REAL chair: the original, made in Sweden since 1971.
Good quality is always modern!
